

Key Investor Information

This document provides you with key investor information about this sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this sub-fund. You are advised to read it so you can make an informed decision about whether to invest.

SANTANDER MULTI INDEX SUBSTANCE
a sub-fund of SANTANDER SICAV

Class
A

ISIN
LU1983372183

The management company is
Santander Asset Management
Luxembourg S.A.

Objectives and Investment Policy

Objective: The objective of this Sub-Fund is to provide a return from a portfolio of investments with exposure to a diversified range of fixed interest instruments and equities of worldwide corporate, sovereign or quasi-sovereign issuers, with no more than 25% of its net assets exposed to equities.

Investment policy: To achieve this objective, the Sub-Fund will gain exposure to these asset classes through investments in exchange traded funds. Such undertakings for collective investment are classified as UCITS or other UCIs.

The Sub-Fund may use derivatives with a view to reduce the risk of investment positions or for efficient portfolio management or as a part of the investment strategy.

The Investment Manager will, in any case, invest in UCITS and eligible UCIs managed by first-rate fund management companies with a wide experience in the markets and a high degree of solvency, considering the volume of assets under management. The choice of underlying UCITS and UCIs will also take into account the management quality of the investment manager, the past returns achieved by the underlying fund, the risk/return ratio and the volume of assets of the underlying fund.

The Sub-Fund is actively managed in reference to the ICE BofA Euro Government Index (60%); ICE BofA Euro Corporate Index (20%); MSCI World Net Total Return USD Index (20%) (the "Benchmark"). The Sub-Fund does not track the Benchmark. The reason for referring to the Benchmark in this investment policy is to indicate that it is used for performance comparison purposes. However, the Investment Manager uses its discretion to allocate to different assets based on an analysis of the market conditions, economy prospects and valuations. As such, the Investment Manager will deviate from the Benchmark asset allocation and invest in other allowed assets that might not be part of it.

Net asset value calculation frequency: Daily, any full Business day.

A prior notice of one Dealing Day will be required for subscription, conversion and redemption applications lodged with the Registrar and Transfer Agent in Luxembourg before 16:00 Luxembourg time (the "cut off time") so that any application received before the cut off time of any Dealing Day D will be processed at the Net Asset Value applicable on Dealing Day D+1.

This is an accumulation share class in EUR.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 2 years.

Risk and Reward Profile

The number indicated above is the fund's **Synthetic Risk Reward Indicator**, a way of illustrating the risk and reward profile of a fund by using historic performance data. Please be aware, this value can change over time and it may not be a reliable indication of the fund's future risk profile. In addition, the lowest category does not mean a risk-free investment.

A ranking of **3** means this fund typically has a medium to low level of volatility, meaning that the fund's value is likely to fluctuate over time.

Investors should be aware of the following risks:

Liquidity Risk: It refers to the possibility that the Sub-Fund may lose money or be prevented from earning capital gains if it cannot sell a security at the time and price that is most beneficial to the Sub-Fund and may be unable to raise cash to meet redemption requests.

Credit Risk: It refers to the likelihood of the Sub-Fund losing money if an issuer is unable to meet its financial obligations, such as the payment of principal and/or interest on an instrument, or goes bankrupt.

Counterparty Risk: A Sub-Fund that invests in OTC contracts may find itself exposed to risk arising from the solvency of its counterparts and from their ability to respect the conditions of these contracts. The Sub-Fund may enter into futures, options and swap contracts including CDS or use derivative techniques, each of which involves the risk that the counterparty will fail to respect its commitments under the terms of each contract.

Sustainability risk: The Sub-Fund's investments may be subject to sustainability risks. Sustainability risks are environmental, social or governance events or conditions that, if they occur, could cause an actual or a potential material negative impact on the value of the Sub-Fund's investments.

Operational Risk: It refers to a failure or delay in the system, processes and controls of the Sub-Fund or its service providers (including all safekeeping of assets) which could lead to losses for the Sub-Fund.

Charges

The fees are used to cover the operating costs for the Sub-Fund, including marketing and distribution costs. These fees reduce the potential growth of the investment.

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	1.35%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

The entry and exit charges shown above are the maximum that may be charged. In some cases, you might pay less. You can obtain the actual charges directly from your financial adviser or distributor. The entry charges are deducted before your capital is invested.

The ongoing charge percentage indicated is based on the fees from the previous financial period, ended on 31 December 2021. This figure can vary from one financial period to another.

You can obtain more information about these charges, in the «fees and expenses» section of the prospectus.

No management fee will be charged out of the net assets of this Class. The Management Company will instead be paid for its services out of the fees charged by the distributor of this Class to its investors. For more information, see the “Classes” section of the prospectus.

Past performance

Past performance of Sub-Fund is not necessarily indicative of future performance.

The calculation of the past performance includes all fees and commissions which accrue on fund level.

This class was created in 2019.

The past performance has been calculated in EUR.
